Subject: Ukrainian Boxing Federation Situation

Dear Sirs,

The International Boxing Association (IBA) contacts you concerning the correspondence received in the latest days regarding the Ukrainian boxing and Ukrainian Boxing Federation situation. We have taken note of the contents of the said correspondence and would like to inform you of the following.

IBA is concerned with the Ukrainian boxing's current situation and kindly reminds all interested parties that the best solution for any difficult situation is a constructive dialogue.

IBA recognizes Mr. Prodyvus as President of the UBF. However, IBA will observe and monitor the situation with the court action, and we kindly ask you to inform IBA about any development of the mentioned procedure. IBA will respect any final and binding decision of the national courts.

IBA kindly asks UBF regional federations to refrain from holding uncoordinated conferences, which may create a parallel federation and cause a possible split within the Federation. Such actions could lead to the suspension of the UBF's membership in IBA. We remind you that any elective conferences must be held under the IBA Membership Policy.

We hope that all interested parties will overcome any difficulties the Ukrainian boxing has encountered and resolve any problem through negotiations.

Yours sincerely,

Umar Kremlev
President of International Boxing Association (IBA)
